### **Section IIIB -- ALTERNATIVE DIVERSION REQUIREMENT**

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CDMIB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 685. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation. Attach additional sheets if necessary -- please reference each response to the appropriate call number (e.g., IIIB-1).

**1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

There are two major barriers to meeting our 50% goal. First : Launage barrier with the population of Arvin being 90% Hispanic. Second: Highly transient population of Arvin due to seasonal Farm Labor. Both of these barriers add to an even lower participation from the citizens of Arvin. Continued efforts in bi-lingual materials for all areas in the community. Examples of recent efforts attached.

**2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?**

The barriers mentioned above are the true factors in requesting an Alternative Diversion Rate. An effort to inform the population through a number of different programs. Areas of focus will be the school systems, commercial properties, local government agencies and working with community groups such as Community Clean Sweep. We can anticipate an increase in participation of the citizens of Arvin with continued education and promotion of these services and opportunities to recycle which can benefit the person themselves and their community.

**3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The programs listed in the City of Arvin's PARIS reporting are in progress and continue to be supported by New City Ordinances and efforts of community groups such as Community Clean Sweep and Mountainside Disposal as the city's hauler.

Efforts in expanding and creating new sources of diversion for the city from all sectors of the city to include residential, commercial and government entities, ie Schools, Parks and Offices.

**4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.**

Enclosed are copies of above mentioned efforts.

**Section 6/FB - GOAL ACHIEVEMENT**

Goal Achievement describes the activities that jurisdiction will use to achieve the ABB.  
Attach additional sheets if necessary.
